the ultimate security  
story!

# TRICEPT WINDOW SECURITY

Fitted with the unique Tricept 9 point locking system you can feel safe and secure in your home knowing that every opening window is secured on all 4 sides.

## The Maxim Handle

- Locks automatically on closing
- Simple push button release
- Additional key locking as standard
- Modern stylish design
- Concealed screw fixings

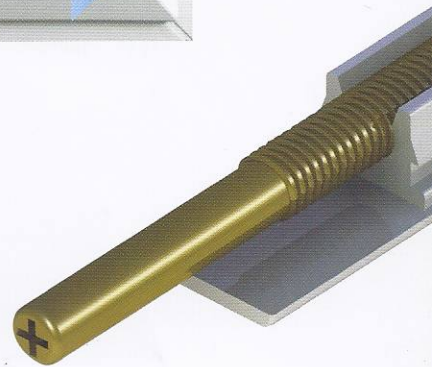

## The Tricept 9 Point Window Lock

2 x 8mm full length solid shoot-bolts.

2 x 3mm stainless steel hinge locks and 4 x 8mm IXEF dog-bolts.

1 x 5mm x 22mm steel dead lock operated by the stylish push button Maxim key locking handle.

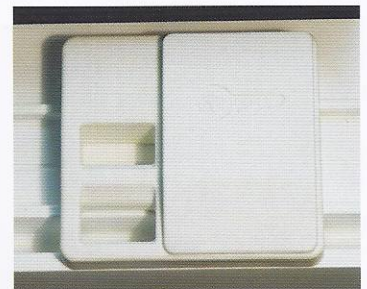

## Neat Ideas

To enhance the appearance of your new windows, Tricept designers have created superb white IXEF keeps to accommodate all window locks.

IXEF is the hardened material used in 'crash helmet' technology.

It is stronger than brass, anti-corrosive and will not show scratches or similar.

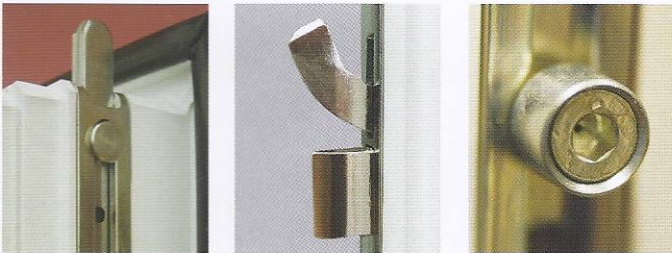

# TRICEPT DOOR SECURITY

In December 2007 The British Standards Institute revised entrance door lock testing to combat a number of weaknesses identified with standard key cylinders.

For your ultimate security every Tricept door is now fitted with the unique Magnum Superior cylinder, tested and accredited to British Standards against all known cylinder manipulation. And for your convenience, it is supplied with 5 keys as standard.

## The Tricept 12 Point Door Lock

- 2 x top and bottom shoot-bolts
- 3 x outer/inner facing hook locks
- 2 x dead-locks
- 1 x centre locking latch
- 4 or 6 x roller cams (dependent on door height)

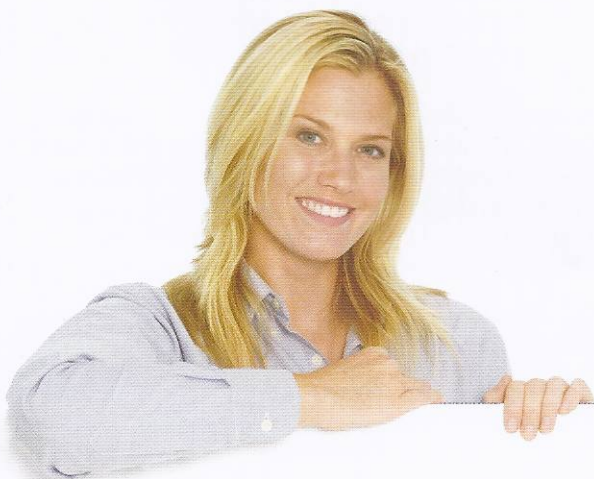

### Smooth operation

To ensure a smooth operation the lock has been engineered using ball-bearings to throw all 12 lock mechanisms simply by lifting the handle upwards and then key locked in the fixed position. French doors will include shoot bolts to the slave door that once again lock by lifting the slave door handle.

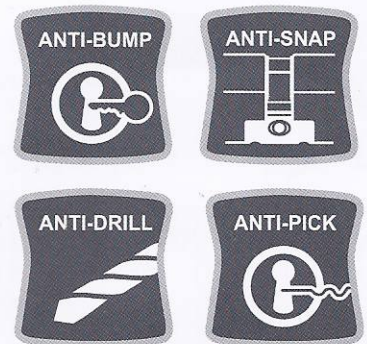

### All round security

To complete the all round security, Tricept doors are fitted with 3 high security hinges. Together with the subtle sight lines of a butt hinge, each hinge is secured by a number of fixings through three walls of PVC and outer frame steel reinforcing. With additional anti-lift fittings the hinges successfully pass PAS 24/1, the industry security accreditation requirement.

BS EN1303:2005

## High Security Cylinder

Supplied with 5 keys

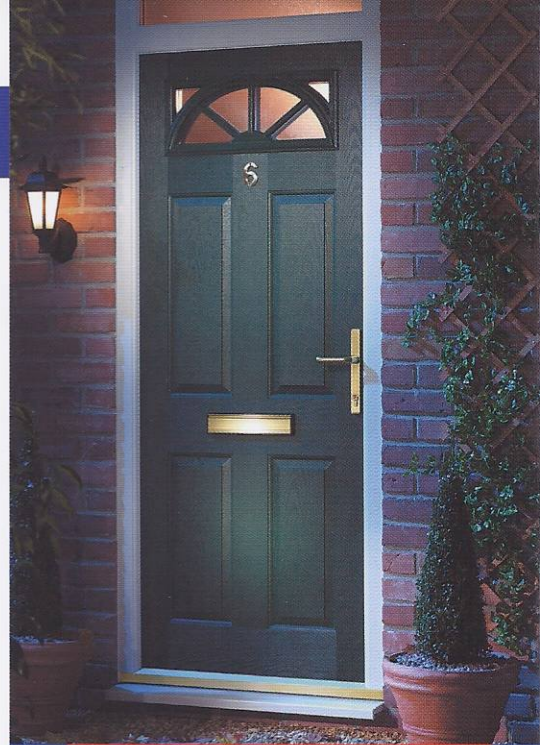

## feel safe, feel secure

You can feel safe, knowing that Tricept doors are secured on all 4 sides, for your all round security.

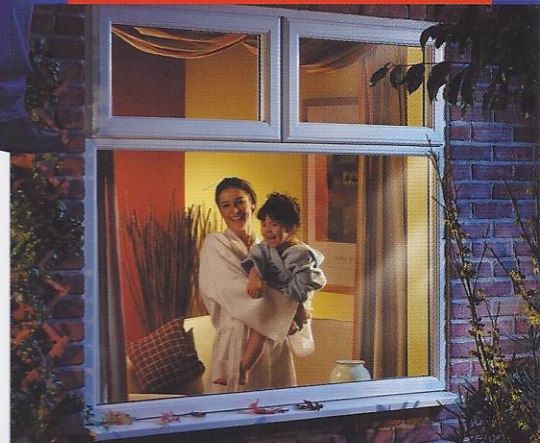

**“ In my experience, burglars come in two sorts, the sneak thief, who’s usually desperate but is put off by most security measures...and the professional house breaker who isn’t put off so easily”**

Sgt Bill Brown,  
Crime Prevention Officer.

**We are so confident in the security of our products we are prepared to pay up to £500 of any insurance excess payable under your home contents policy in the unlikely event of your window locks failing.**

Full claim procedures with terms and conditions are available on request.

Our residential doors and french doors can be fitted with an optional low threshold, this unique feature will ease access for all ages. All our windows are available with fire escape hinges and restriction hinges, a safety feature designed to keep young children safe and secure.

# Making your home welcoming to only those you want inside.

Fitting windows and doors from the Ultimate Collection will give you the peace of mind that your home is protected by the very best that technology and craftsmanship can offer.

## Following these additional security measures will also help...

- Install security lighting to the front and back of your home.
- If possible have a 1.8 metre fence to the rear of your property and a fence, wall or landscaping to the front no higher than 1 metre.
- Consider fitting an intruder alarm by an approved installer to comply with BS 4737.
- Use timers on internal lights to give your home the appearance of being occupied when you are not there.
- Security mark and photograph all your valuable property.
- Post warning stickers on your windows when your possessions are marked.
- Cancel all deliveries and notify your neighbours when you are away from your home for holidays and long periods.
